

What is Wilderness?

The Wilderness Act of 1964 defines Wilderness as:

A wilderness, in contrast with those areas where man and his own works dominate the landscape, is hereby recognized as an area where the earth and its community of life are untrammelled by man, where man himself is a visitor who does not remain. An area of wilderness is further defined to mean in this Act an area of undeveloped Federal land retaining its primeval character and influence, without permanent improvements or human habitation, which is protected and managed so as to preserve its natural conditions and which (1) generally appears to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable; (2) has outstanding opportunities for solitude or a primitive and unconfined type of recreation; (3) has at least five thousand acres of land or is of sufficient size to make practicable its preservation and use in an unimpaired condition; and (4) may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

National Forest**

Table Rock Trail #365

The Table Rock Trail is located in the Monument Rock Wilderness, and ranges in elevation from 7000 ft. to 7500 ft.

This trail can be reached during the summer months for recreation.

This trail is in the wilderness, no mechanized modes of travel are allowed. This includes bicycles, ohv's, or game carts.

What to Look Forward To

This trail has wildlife as well as beautiful wildflower viewing. The trail has a view of the Little Malheur River to the South. To the east are views of the Unity area. Unique rock formations make for more interesting scenery.

Great Hike

Table Rock trail travels through an open meadow, high elevation area. For a short one day hike stay on Table Rock trail to Bullrun Rock. Another day hike will lead north on Trail 154 into the Wallowa Whitman National Forest, this trail leads up to the Table Rock Fire Lookout. For great multiday hike options connect with other trails in the Wallowa Whitman National Forest. If you are going to build a campfire please stay 100 ft. from water sources and use existing fire rings.

Safety In the Woods

Be prepared for all types of conditions and weather. Bring with you extra food and water, or water filtration system. Be bear and cougar aware, tie food up in a tree or bring a bear box to protect food, never keep food in your tent. Have a plan for your trip including route of travel and estimated time of return. Let family or friends know your plans. Do not rely on cell coverage or GPS. Carry a paper map and know how to read it. Plan ahead and be safe.

Trail Information

The trail is 1.8 miles long one way.

Moderate
